2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification: Reproductive Toxicity Category 2; Hazardous to the aquatic environment - Acute

Category 2; Hazardous to the aquatic environment - Chronic Category 2

GHS Signal Word: Warning

GHS Hazard Statements: May cause an allergic skin reaction.; Suspected of damaging fertility or the unborn

child.; Toxic to aquatic life.; Toxic to aquatic life with long lasting effects.

GHS Precautionary Statements:

Safety Precautions: Obtain special instructions before use. Do not handle until all safety precautions

have been read and understood. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective

gloves/protective clothing/eye protection/face protection.

First Aid Measures: IF ON SKIN: Wash with plenty of soap and water. IF exposed or concerned: Get

medical advice/attention. If skin irritation or rash occurs: Get medical

Replaces:

advice/attention. Wash contaminated clothing before reuse. Collect spillage.

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with

local/regional/national/international regulation for hazardous wastes.

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
Cyclohexanol, 4-(1,1-dimethylethyl)-,	32210-23-4	1 - 5
1-acetate		
Benzoic acid, 2-hydroxy-,	118-58-1	1 - 5
phenylmethyl ester		
Benzoic acid, 2-hydroxy-, pentyl	2050-08-0	1 - 5
ester		
Cyclododecane, (ethoxymethoxy)-	58567-11-6	1 - 5
Octanal, 2-(phenylmethylene)-	101-86-0	0.5 - 1.5
Benzoic acid, 2-hydroxy-, hexyl ester	6259-76-3	0.5 - 1.5
6-Octen-1-ol, 3,7-dimethyl-	106-22-9	0.1 - 1
Benzenepropanal, 4-(1,1-	80-54-6	0.1 - 1
dimethylethyl)-alpha-methyl-		
Benzenepropanal, alpha-methyl-4-	103-95-7	0.1 - 1
(1-methylethyl)-		
Bicyclo[3.1.1]hept-2-ene-2-ethanol,	128-51-8	0.1 - 1
6,6-dimethyl-, 2-acetate		

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

Skin Contact:

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact: Flush eyes with plenty of water for at least 20 minutes retracting

eyelids often. Tilt the head to prevent chemical from transferring to

the uncontaminated eye. Get immediate medical attention. Wash with soap and water. Get medical attention if irritation

develops or persists.

Inhalation: Remove to fresh air. If breathing is difficult, have a trained

individual administer oxygen.

Ingestion: Minimal risk of harm if swallowed. Do not induce vomiting. Seek

medical attention immediately. Provide medical care provider with

this MSDS.

5. Fire-fighting measures

Suitable (and unsuitable) extinguishing media:

Suitable extinguishing media: Use alcohol resistant foam, carbon dioxide, dry chemical, or water

spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly

into the hot burning liquid.

Unsuitable extinguishing media: No Data Available

Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products):

Flammability Summary: Combustible at elevated temperatures

Fire and/or Explosion Material may be ignited if preheated to temperatures above the

Hazards: flash point in the presence of a source of ignition.

Hazardous Combustion Carbon Oxides

Products:

Special protective equipment

and precautions for fire-

fighters:

Do not enter fire area without proper protection including selfcontained breathing apparatus and full protective equipment. Fight

fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products.

6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures:

No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment

recommendations found in Section VIII of this MSDS

Methods and materials for No special spill clean-up considerations. Collect and discard in

containment and cleaning up: regular trash.

7. Handling and storage

Precautions for safe handling: Mildly irritating material. Avoid unnecessary exposure. Do not get

> in eyes, on skin and clothing Wash thoroughly after handling Keep in air-tight containers- material is hygroscopic. Do not reuse containers. Avoid breathing vapors from heated material Use with

adequate ventilation

Conditions for safe storage, including any incompatibilities

Conditions for safe storage: Store in a cool dry place. Isolate from incompatible materials. Limit

> quantity of material stored. Store this product in air-tight containers. Keep away from heat, sparks, and flame

Materials to Avoid/Chemical

Incompatibility:

Strong oxidizing agents. Strong bases

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

Chemical Component	ACGIH TLV-TWA	ACGIH STEL	OSHA PEL
No Data Available			

Appropriate engineering

controls:

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Use process enclosures to control the level of dust in the air. Facilities storing or using this material should be equipped with an eyewash and safety shower. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910.

Individual protection measures, such as personal protective equipment:

Respiratory Protection: No respiratory protection required under normal conditions of use.

> Provide general room exhaust ventilation if symptoms of overexposure occur as explained Section III. A respirator is not normally required. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever

workplace conditions warrant the use of a respirator.

Eye Protection: Wear chemically resistant safety glasses with side shields when

handling this product. Do not wear contact lenses. Wear goggles

and a Face shield

Skin Protection: Not normally considered a skin hazard. Where use can result in skin

> contact, practice good personal hygiene, and wear a barrier cream and/or impervious surgical style gloves. Wash hands and other

Change Toxicity:

Delayed and immediate effects and chronic effects from short- and long-term exposure:

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation: Can cause respiratory irritation. **Skin Contact:** Can cause minor skin irritation.

: Minimal hazard in normal industrial use. May cause gastrointestinal discomfort

Harmful if absorbed through the skin.

Eye Contact: Can cause moderate irritation, tearing and reddening, but not likely to permanently

injure eye tissue.

Ingestion Irritation: Mildly irritating to mouth, throat, and stomach. Can cause abdominal discomfort.

Ingestion of this product may result in central nervous system effects including

headache, sleepiness, dizziness, slurred speech, and blurred vision.

Long-Term (Chronic) Health Effects:

Carcinogenicity: None of the substances have been shown to cause cancer in long term animal

studies. Not a carcinogen according to NTP, IARC, or OSHA.

Reproductive andNo data available to indicate product or any components present at greater than

13. Disposal considerations

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging.

Description of waste residues: Spent or discarded material is not expected to be a hazardous

No Data Available

waste.

Safe Handling of Waste:

Waste treatment methods (including packaging):

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO

ANY BODY OF WATER. All disposal practices must be in

compliance with all Federal, State/Provincial, and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we

have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state, or provincial

agencies may have specific regulations concerning the

transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The user shall have to review these regulations to ensure full compliance with all

applicable regulations.
