SAFETY DATA SHEET

Section 1: Identification

Product Name: Crafter's Choice™ Hyaluronic Acid
Chemical Name/Synonyms: Sodium Hyaluronate
Company: IndiMade Brands, LLC DBA Wholesale Supplies Plus
7820 E Pleasant Valley Road, Independence, OH 44131 Telephone: (800) 359-0944

Section 2: Hazard(s) Identification

Not classified as Dangerous Goods by the criteria of the Dangerous Goods Code (Code) for transport by Road and Rail; NON-DANGEROUS GOODS.
Based on available information, not classified as hazardous according to general safety standards; NON-HAZARDOUS SUBSTANCE.
Poisons Schedule (SUSMP): None allocated.

Section 3: Composition/ Information on Ingredients

Chemical Name	CAS#	Conc.
Sodium Hyaluronate	9067-32-7	100%

Section 4: First-Aid Measures

After skin contact: If skin contact occurs, remove contaminated clothing and wash skin with running water. If irritation occurs seek medical advice.
After eye contact: If in eyes, wash out immediately with water. In all cases of eye contamination, it is a sensible precaution to seek medical advice.
After inhalation: Remove victim from area of exposure -avoid becoming a casualty. Seek medical advice if effects persist.
After swallowing: Although swallowing is unlikely to cause problems, it is a sensible precaution to rinse the mouth with water and give a glass of water to drink.

Section 5: Fire-Fighting Measures

Suitable extinguishing agents: Fine water spray, normal foam, dry agent (carbon dioxide, dry chemical powder).
Specific hazards arising from the substance or mixture: Combustible solid.
Special protective equipment for firefighters: On burning will emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapor or products of combustion.

Section 6: Accidental Release Measures

Measures for environmental protection: If contamination of sewers or waterways has occurred advise local emergency services.

Measures for cleaning/collecting: Wear protective equipment to prevent skin and eye contact and breathing in dust. Work up wind or increase ventilation. Cover with damp absorbent (inert material, sand or soil). Sweep or vacuum up but avoid generating dust. Collect and seal in properly labeled containers or drums for disposal.

Section 7: Handling and Storage

Handling: Avoid skin and eye contact and breathing in dust. In common with many organic chemicals, may form flammable dust clouds in air. For precautions necessary refer to Safety Data Sheet "Dust Explosion Hazards".

Storage: Store in a cool, dry, well-ventilated place and out of direct sunlight. Keep containers closed when not in use -check regularly for spills.

Section 8: Exposure Controls/Personal Protection

Engineering Controls: Ensure ventilation is adequate to maintain air concentrations below Workplace Exposure Standards. Avoid generating and breathing in dusts. Use with local exhaust ventilation or while wearing dust mask. Keep containers closed when not in used.

General protective and hygienic measures: The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

Wear overalls, safety glasses and impervious gloves. Avoid generating and inhaling dusts. If determined by a risk assessment an inhalation risk exists, wear a dust mask/respirator meeting the requirements of AS/NZS 1715 and AS/NZS

1716. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

Section 9: Physical and Chemical Properties

Form: Powder

Color: White

pH: No data

Melting point/melting range:

Boiling point/boiling range: No data

Flash point: No data

Evaporation rate: No data

Flammability: No data

Upper/lower flammability or explosive limits: No data

Auto ignition temperature: No data

Danger of explosion: No data

Vapor pressure: No data

Vapor density: No data

Relative density: No data

Section 10: Stability and Reactivity

Chemical stability: Stable under normal conditions of use.

Possibility of hazardous reactions: None known.

Conditions to avoid: Avoid dust generation.

Incompatible materials: None known.

Hazardous decomposition Products: Oxides of carbon.

Section 11: Toxicological Information

Skin: Contact with skin may result in irritation. Can cause skin to dry out.

Eyes: May be an eye irritant. Exposure to the dust may cause discomfort due to particulate nature. May cause physical irritation to the eyes.

Inhalation: Breathing in dust may result in respiratory irritation.

Ingestion: No adverse effects expected.

Section 12: Ecological Information (non-mandatory)

Ecotoxicity Avoid contaminating waterways.

Section 13: Disposal Considerations (non-mandatory)

Disposal methods:

Refer to Waste Management Authority. Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14: Transport Information (non-mandatory)

Road and Rail Transport

Not classified as Dangerous Goods by the criteria of the Dangerous Goods Code (Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

Marine Transport

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Air Transport Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

Section 15: Regulatory Information (non-mandatory)

Classification:

Based on available information, not classified as hazardous according to Safe Work Standards; NON-HAZARDOUS SUBSTANCE.

Poisons Schedule (SUSMP): None allocated.

This material is listed on the Inventory of Chemical Substances (ICS).

Section 16: Other Information

The information provided in this safety data sheet is the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
